Dental Hygiene Forum

**Plan B: Negative Outcomes and Failures of
Periodontal Therapy**

Wilshire Grand Hotel
Los Angeles, California

Saturday, January 24, 2009

Symposium Chair: Homayoun Zadeh

Speakers: Su-Yan Barrow, Paulo Camargo,
Anne Haffajee

The Treatment of Periodontal Infections: Understanding Success and Failure

Anne Haffajee, DDS
9:00am - 12:00pm

Upon completion, participants will be able to understand:

- The microbial etiology of periodontal diseases including the role of specific periodontal pathogens, their habitats and distribution in the oral cavity
- The effects of different periodontal therapies on both clinical and microbiological parameters
- The role of systemic antibiotics in the treatment of periodontal infections including clinical situations where they are likely to be the most effective
- The role of periodontal surgical therapy in the management of periodontitis
- What happens when periodontal therapy fails to provide a successful clinical outcome
- The role of combination therapies particularly in the treatment of “refractory” periodontitis

Treating, Maintaining and Re-Treating the Periodontal Patient: A Contemporary Approach to Non-Surgical and Surgical Therapy

Paulo M. Camargo, DDS, MS, MBA
1:15pm - 2:50pm

Upon completion, participants will be able to:

- Describe the diagnostic tools currently available for periodontal diseases
- Recognize risk factors associated with periodontal diseases
- Understand the current status of non-surgical mechanical periodontal therapy
- Understand the role of periodontal surgical therapy in the management of periodontitis
- Discuss the importance of periodontal maintenance on the long-term success of periodontal therapy
- Discuss the advantages and limitations of pharmacological agents in the management of periodontal diseases

Dentine Hypersensitivity - An Overview

Su-Yan L. Barrow, RDH, MA, MPH
3:20am - 4:50pm

Upon completion, participants will be able to:

- Describe the diagnostic aids available for comprehensive assessment of dentinal hypersensitivity
- Recognize etiologic factors associated with dentinal hypersensitivity
- Describe the strategies to prevent the onset of dentinal hypersensitivity
- Discuss the therapeutic options for the management of dentinal hypersensitivity

Dental Hygiene Forum: Saturday, January 24, 2009
